

Kuwait Oil Company awards Data Management Services contract to DPTS

Kuwait Oil Company (KOC) has awarded a major data storage and maintenance services contract to DPTS.

InfoAsset Ltd. (formerly DPTS Storage Ltd) is managing the physical media and providing a suite of Value Add services at their new dedicated E&P facilities in Dartford, Kent. These services offer KOC key benefits including;

- Audit of the inventory and correction of E&P Catalogue,
- Secure On-line Access to the live catalogue for all E&P staff worldwide
- On-line ordering of services

Much of the digital data is held on old IBM 3480 and 3490E cartridges and DPTS will be re-mastering these cartridges to IBM 3590 cartridges to reduce the data volumes and preserve the data integrity.

DPTS will also be providing regular routine maintenance of the data and will ensure that KOC are informed of new technology, media and methodologies that may be of benefit to their valuable data asset.

The contract duration is four years commencing 1 January 2005.
